VIJAY KUMAR PANDIT

Address: J2 ,156/3 , Gupta colony, Sangam Vihar, New Delhi, Delhi-110080
Phone: +91-9810369589
Email: panditvijay551@gmail.com
LinkedIn: https://linkedin.com/in/vijayypandit

SUMMARY

Results-driven Senior Software Engineer with 5+ years of experience in designing and implementing innovative solutions, optimizing processes, and collaborating effectively to achieve project success.

WORK EXPERIENCE

Senior Software Engineer - Globallogic India Private ltd (Gurgaon) **Oct 2022 - Present**
Project: Billing Finance (Tele communication)
Technologies : Java8, Lambda , REST API, Microservices , Cassandra, Json, xml, OSGI Karaf Bundles, Jenkins, Git , Docker, Kubernetes, Kafka, Multithreading ,Springboot

- Designed and implemented scalable, modular microservices & managed using SpringBoot to enhance efficiency, flexibility, and maintainability of our billing finance telecom project.
- Leveraged Java 8 features to optimize existing billing code, improving processing speed and system performance. Reduced processing time by 20%.
- Designed Cassandra DB tables using Avro schemas, enabling efficient data storage and retrieval for billing functionality.
- Developed RESTful APIs to facilitate customer migration across different sites and databases. Implemented robust validations to ensure data integrity during migration.
- Implemented Kafka Messaging, enabling a more robust and scalable messaging system.
- Migrated applications to a containerized environment using Docker, Kubernetes.
- Utilized Multithreading , including thread pools and executor services to optimize processing tasks & enhanced performance by improving concurrency & reducing response time for critical billing & invoice.

Software Engineer - Wipro Limited (Bangalore) **Oct 2021 - Oct 2022**
Certification: Pega Certified System Architect (PCSA)
Technologies : Core java, Java8 & features, Lambda, REST API & Microservices, MongoDB , AWS cloud services , Pega Application, SSO ,SAML/OPEN ID Connect.

- Developed secure backend modules using Spring Boot framework and Spring Security for authentication and authorization, ensuring adherence to coding guidelines.
- Reduced query execution time from 50 ms to 30 ms.
- Streamlined existing REST service testing processes and established Single Sign-On (SSO).
- Effectively applied design patterns (Factory & Singleton) to achieve project requirements, promoting code maintainability and reusability.
- Leveraged Java, Spring Boot, and Pega PRPC to build secure, scalable, and user-friendly product features while interacting with databases through optimized queries.
- Designed and implemented robust security features for cloud-based applications.
- Utilized Agile Way to identify root causes of high-severity issues, implementing actionable solutions to improve system stability.
- Created SAML, OpenID Connect, and Basic Credential authentication services for Pega applications, incorporating RBAC, ABAC, Access Groups, and Access Roles for granular access control

System Engineer - Tata Consultancy Services Ltd (Gurgaon) **Jun 2019 - Sep 2021**

Banking System (Axis)

Technologies: Core java, java 8, MySQL, Collections, Git,Github, Bugzilla Portal, AWS,TCS Bancs

- Thrived in an Agile development environment, fostering strong teamwork and collaboration to deliver solutions efficiently.
- RTGS 24*7 implemented for payments.
- Leveraged Java 8 features and core Java principles to develop robust software solutions.
- Implemented software solution with optimized performance.
- Performed comprehensive bug testing, Unit & Integration Tests.
- Collaborated with customers to gather and translate change requests into actionable code. modifications.
- Developed and optimized RESTful APIs using Spring Boot annotations and dependencies, leveraging Java collections for efficient data handling.
- Maintained code version control and collaboration using Git.

EDUCATION

B.Tech (CSE) **Aug 2015 - May 2019**

- Uttarakhand Technical University (82%)

High School (XI & XII) **May 2013 - May 2015**

- Pentagon International College, Kathmandu , Nepal (82%)

School (X)

- Sarvodaya Secondary English Boarding School, Janakpur, Nepal
- 76.5%

LANGUAGES & TECHNOLOGIES

- **Programming languages**: C , Java, Javascript, C# .net
- **Database**: MySql, MongoDB, Cassandra , AWS dynamodb ,AWS RDS
- **Frameworks/Tools**: Vs code, Intellij, Git, Github, RestApi, Springboot, Kafka, Junits, Mockito ,Linux, Pega , SAML tracer , Workbench, Microservices,
- **Problem Solving:** Data Structures & Algorithm
- **Container:** Docker, Kubernetes, Helmchart
- **Cloud:** AWS

PROJECTS

- **Library Management System(LMS)** using Java to store all information of library book. [Link]
  - CRUD operation for books detail , library details, user detail with timestamp
  - Spring Boot Framework is used.
- **Smart Irrigation System using Internet Of Things (IOT) and Arduino Programming [Link]**
  - This device will sense & measure temperature & water level
  - Motors is set to start when water level decreases and moisture & alarm is raised.
  - Motor is started and once water level is reached , it notify farmer and stop running motor automatically.
- **Java Spring Boot Web Socket Chat App using STOMP protocol [Link]**
  - User can chat with another user , anonymously in chat room

AWARDS & ACHIEVEMENTS

- Achieved First Rank Certificate in the **Code-Hunt** Coding Competition organised in Utkrisht 2018, Tulas institute.
- Awarded with 5 star ranking for implementing **RTGS 24*7** in 2019 for Payments in **TCS** (Axis Bank) .
- Award recognition by Client for Completing project to move from Virtual env to Containerized environment.
- Achieved Certificate in **IEEE** National Workshop on Research Paper Writing .
- Achieved Participation Certificate in **IEEE** International Conference on Advances in Computing , Communication & Automation(**ICACCA-2016**) in Dehradun ,India, IEEE

PERSONAL DETAILS

- **Father's name**: Ram Sagar pandit
- Languages: English, Nepali, Hindi, Maithili
- **Date Of Birth**: 10-Sep-1996

DECLARATION

- I do hereby state that all the details mentioned above are accurate to the best of my familiarity and confidence. I bear the accountability for any blunder or mistake in the future.
